

### **Trainee Machine tool fitters:**

**The Company:** Wickman Coventry Ltd, is an OEM Machine tool design and manufacturing company now in its 95th year. We produce a specialised range of Multi-Spindle CNC and Automatic Lathes from our Coventry factory. This is an excellent opportunity to join a dynamic, ambitious and fast paced company with a diverse range of work on offer to a bright & enthusiastic individual.

### **Training will be given on these Duties:**

- Stripping down machines and identifying worn and unserviceable parts.
- Fitting & assembling assemblies and carrying out alignment tests and checks.
- Fitting mechanical, pneumatic and hydraulic systems.
- Test cutting & function testing of the machines.
- Fault finding and repairing.

### **Essential Requirements:**

- The ability to lift and move parts to assembly up to 25 kilos.
- Have a positive attitude and a demonstrable willingness to learn.
- Be confident having the ability to work using your own initiative.
- Be able to work towards deadlines and prioritise workload effectively.

### **Not Essential:**

- Be apprenticeship served or other formal training.
- Be able to understand and work to engineering drawings.

### **The Main Benefits:**

- Hourly rate £10 an hour & above depending on skills & experience.
- Overtime opportunities (overtime is paid at premium rates).
- Company pension scheme.

To be considered for this opportunity please send your CV to [c.coyne@wickman.co.uk](mailto:c.coyne@wickman.co.uk) If you have not been contacted regarding your application within 7 days please assume that you have not been successful. We will, however, retain your application for any future roles for which you may be suitable.
