Turning Pages

Summer is here!

We're delighted to welcome you to the Summer edition of the Wickman newsletter.

It's been a while since the last edition of Turning Pages, and we've got plenty of exciting updates for you. We've been out and about catching up with customers and people within the machining world. There are plenty of Wickman machines being built and heading off to customers far and wide. So, grab a coffee or lemonade, sit back, and enjoy a good read!

Thank you and kind regards,
Owen Coyne, Managing Director

Heart of a Wickman

Engineering excellence is at the heart of everything Wickman do.

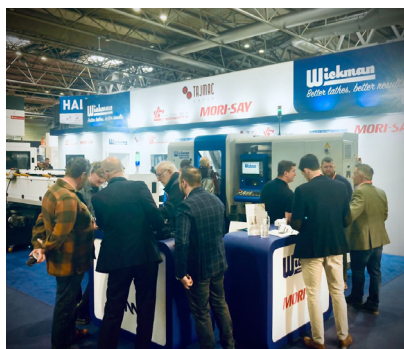

Whether it's a Multispindle Lathe, Spindle Drum, Spindles, Indexing Gear or a Cam Drum, we're constantly evolving our processes to ensure the highest quality possible.

Check out the Wickman ACW 644 Multi-Spindle Lathe being built for a customer in the UK.

Mach Exhibition 2022

Mach 2022 took place 4 - 8 April. Whilst the Coronavirus posed a concern in the months leading up to the show, it was a relief to see such an excellent turnout of enthusiastic and passionate people within the world of machining. The exhibition gave Wickman Group the opportunity to showcase both the Wickman 6-44 CNC and the Mori-Say 620CNC with Cucchi Bar Loader. Being the only Multispindle Manufacturer

at the show demonstrated the strength that Wickman has within the UK. It was wonderful seeing both old and new faces at the show.

Mori-Say 642CNC Benefits

Mori-Say TMZ 642CNC is a fully CNC controlled Multispindle lathe suitable for small to high volume production with the capability of machining difficult and complex components.

- High accuracy at mass production
- Up to 48 CNC controlled axes
- Rigidity and speed comparable to cam operated machines
- AC drives for spindles
- Large and flexible selection quick change tool holders

Elmia 2022 Sweden

Tajmac Group attended their first ever show in Sweden at The Elmia Machine Tool Exhibition.

Starting with a smaller stand than we had at Mach in the UK, we were proud to have showcased components from our Wickman and Mori-Say Multispindle machines as well as tool holders from our Tangi-Flow product range.

Fishing With The Stars 2022

Just in time for a successful summer, Wickman Group are proud to be sponsoring and supporting the Target Sport Stars Fishing Championship 2022 taking place on Tuesday 26 July. With four out of 32 sporting celebrities announced, the event raises money for the Willow Foundation which helps seriously ill young adults. <https://www.willowfoundation.org.uk/>

Delivery to French Customer

Check out the Wickman 644 CNC Multispindle Lathe heading out the door to a leading French customer in the automotive sector.

We are delighted to have provided a solution for them to improve productivity as their volumes were increasing.

If you ever find your production volumes increasing, our precision engineered solutions are designed to help you meet the demand!

Cucchi Bar Loaders BLT to Customers in the UK

2 New CUCCHI-BLT delivered and installed to Wickman 1" Multispindle lathes with 5 more to be installed throughout 2022/23.

The CUCCHI-BLT is the perfect solution for improving productivity and efficiency, providing you with a bespoke fitment tailored to your business. CUCCHI BLT bar loader models MULTI and MULT LS are available for all types of multispindle lathes.

BTMA Golf Tournament

Wickman Engineers Andy Tizzard and Pete Darwin will be representing Wickman again and defending their trophy at the BTMA (British Turned Parts & Machined Components Association) Golf Day on 5th of July at Welcombe Golf Club. Good luck from everyone at Wickman HQ!

Vacancies at Wickman Coventry

Want to join a friendly and forward-thinking team within a fast-growing company with an eye for detail? At Wickman we're passionate about people and their personal growth. Due to the high demand for the Wickman Multispindle Lathe, we have three vacancies to fill.

If you would like to know more email enquiries@wickman-group.com

Solar Panels Being Installed at Wickman UK

In perfect time for the sunny summer months, Wickman Group has invested in solar panels to help power the UK head office in Coventry, England. This helps towards our mission to reduce our ever-increasing energy costs and also helps reduce our carbon footprint.

Tajmac USA

TAJMAC-USA who already has more than 1500 installations of Multispindle machine tools in North America and is one of the biggest manufacturers of multispindle machine tools in the North American market. While we pride ourselves on providing the latest in CNC and CAM Multispindle technology, we're also committed to providing machines that, with proper routine maintenance, will last many years down the road. Our machine pedigree is second to none: Wickman/Mori-Say/Euroturn/Tajmac-ZPS/Cucchi-BLT/Pietro Cucchi/Manurhin KMX.
